- 3. removeable air intake and filter
- 4. handle
- 5. hotel safety on/off
- 6. heat settings
- 7. speed settings
- 8. hanging loop
- 9. anti-kink protection

# Instructions

## 1. Introduction

- This ionic hairdryer is designed for bedroom use, ideal for hotels and other living accommodations.
- It features ionic technology to reduce frizz and static, leaving hair smooth and shiny.
- Suitable for personal hair grooming by non-professionals.
- Always ensure electrical supply is rated at 220–240V, 50/60Hz before use.

## 2. Before First Use

- Inspect the hairdryer for visible damage. Do not use if damaged.
- Remove all packaging and ensure the rear filter is clear of debris.
- Plug the appliance into a suitable power outlet, ensuring the cord is not overstretched.

## 3. Important Safety Notes

### 3.1 Electrical Safety:

- Ensure the power outlet matches the voltage requirements (220–240V).
- If the plug is unsuitable, replace it with a 13amp plug fitted by a qualified technician.
- The mains lead must be replaced by a qualified person if damaged.

### 3.2 General Use:

- Do not use near water, such as bathtubs, showers, or basins.
- Position the hairdryer out of reach of anyone in a bath or shower.
- Avoid wrapping the cord around the appliance to prevent damage.
- Always allow the hairdryer to cool before storing.

### 3.2 User Precautions:

- Avoid looking directly into the barrel when the hairdryer is in use.

# Instructions

- Take care to avoid hot surfaces near your face, ears, and neck.
- Not suitable for use by children or individuals with reduced capabilities without supervision.
- Ionic Technology Note:
  - This hairdryer emits ions to help break down water molecules for faster drying.
  - Ensure air vents remain clear to maintain optimal ionisation performance.

## 4. Usage Instructions

### 4.1 Preparing to Dry:

- Towel-dry and detangle hair before use.
- Plug the hairdryer into a power outlet and ensure the cord is secure.

### 4.2 Operating the Hairdryer:

- Select your desired heat and speed settings:
  - High settings (III, II): For quick, initial drying.
  - Low settings (I, I): For precision styling and minimal heat exposure.
- Use the concentrator nozzle for focused airflow to enhance styling.
- Enjoy the benefits of ionic technology, which reduces frizz and enhances shine.

### 4.3 After Use:

- Switch off the appliance, unplug it, and let it cool before storing.

## 5. Cleaning & Maintenance

### 5.1 Regular Cleaning:

- Wipe the exterior with a soft, damp cloth.
- Clean the removable rear filter using a soft brush to remove hair or debris.

# Instructions

## 5.2 Prohibited Cleaning:

- Never immerse the hairdryer in water or use abrasive cleaners.

## 5.3 Ionic Function Care:

- Keep vents and filters clear to ensure the ionic function operates effectively.

## 6.0 Disposal

- Dispose of the hairdryer responsibly, following local regulations for electronic waste.

# Troubleshooting

## 1. Overheating:

- The safety feature will automatically shut off the hairdryer if it overheats.
- Turn off, unplug, and let it cool for 10 minutes. Check the rear filter and vents for blockages before restarting.

## 2. Ionic Function Not Effective:

- Ensure air vents are clear and filters are clean for optimal ionic output.

## 3. Appliance Not Working:

- Check that the power outlet is functional and the fuse is intact. Replace the 13amp fuse if needed.

## 4. Persistent Issues:

- Discontinue use and consult a qualified technician.
